

It is my understanding that you are considering a change that could cause the loss of the signal for the radio station I listen to--K-LOVE. I listen to this station at 105.5 FM in the Phoenix area. Please reconsider this ruling as K-Love serves both myself and our community. It provides upbeat, positive music that is appropriate for people of all ages to listen to. It provides announcements of community events that are of interest to our residents in this area. And, it is my favorite station to listen to. I would be sad to lose it. Thank you for your consideration.--Dawn Jackson
